### **Marmon Electrical Announces Transit Infrastructure Team**

Attleboro, MA – Comtran, RSCC, and Cable USA, part of Marmon Electrical, are combining expertise and manufacturing capabilities to create a market-based team serving the transit infrastructure market. The unified product portfolio includes industry-recognized brands: HUB-Link<sup>®</sup>, VITALink<sup>®</sup>, Gardex<sup>®</sup>, Integratrax<sup>®</sup>, and Firewall<sup>®</sup>.

According to Craig Stratton, Vice President of Transit Infrastructure, “The ability to leverage the engineering and manufacturing expertise of our wire and cable facilities inherently creates more value for our customers in the transit infrastructure market. With one phone call, customers now have access to products ranging from signal cables from the Integratrax<sup>®</sup> line, low-voltage communications products from the HUB-Link<sup>®</sup> line, circuit integrity products from the VITALink<sup>®</sup> line, armored products from the Gardex<sup>®</sup> line, along with instrumentation to power cables from the low smoke, zero halogen, Firewall<sup>®</sup> line. This combined portfolio of constructions offers a full solution for applications within tunnels, stations, and ventilation systems.”

A new transit infrastructure brochure, featuring the entire portfolio, will be available in 2020.
